

Industrial Technology Maintenance

Instructor

Workshop

Learn to incorporate NIMS industry standards and industry-recognized credentials into curriculum: **pneumatics, hydraulics, electrical systems/electrical control systems, maintenance operations, basic mechanical systems, and process control systems.**

Designed for maintenance and mechatronics instructors, the workshop prepares attendees to test students for NIMS credentials, includes theoretical and hands-on activities, lesson plans, and equipment reviews. Plus, attendees earn up to two credentials.

Nearly 1 million industrial maintenance jobs in the U.S. will need to be filled by 2026

Visit www.nims-skills.org to browse more

Please Note: Minimum 6 participants must register in order for the workshop to be held. Registration **Deadline is April 23, 2021**. NIMS will not reimburse travel costs. We encourage participants to book travel after the registration deadline has passed and workshop is confirmed.

Date

June 7-11, 2021

Time

8:00am-4pm MST

Location

PIMA CC

1255 N Stone Ave

Building ST

Tucson, AZ 85709

Investment

\$1200/person

Investment Covers:

*NIMS registration
and exam fees

*NIMS facilitator

*Classroom

Implementation Guide

*NIMS-endorsed Goodheart-
Wilcox Industrial Maintenance
and Mechatronics textbook

"Industry wants people who are comfortable working with technology-driven machines. One hour of downtime could cost a company a half million dollars."

-Pat Riddle

*Mechanical Engineering
